Education & Training

B.tech Computer Science | Jaypee University of Engineering And Technology | 01/06/2019 - 01/06/2023 | Guna, India

Main subjects:

- Operating Systems
- Artificial Intelligence
- Computer Networks
- Software Engineering
- Theory of Computation
- Data Structures and Algorithms
- Database Management Systems
- Computer Organization and Architecture

Occupational skills:

- AI Development
- Data Analyst/Scientist
- Software development
- System design and debugging
- Web and application development
- Database design and management
- Algorithm design and problem solving

Final grade: 71%(2.2 GPA)

Language Skills

Mother tongue(s): **Hindi**

	Understanding		Speaking		Writing
	Listening	Reading	Spoken production	Spoken interaction	
English	C1	C1	C1	C1	C1
German	A2	A2	A2	A2	A2

Skills

Technical Skill | cloud technologies | React JS/ React Native | Python (computer programming) | Software Developer | Next Js | JavaScript | NodeJS, | Software Engineering.

Projects

UrbanStall (E-commerce / Marketplace Platform) | 02/03/2023 - Current

- Built backend services for product data handling and API integration.
- Developed scalable frontend components for improved user experience.
- Implemented product catalog management, filtering, and responsive UI.
- Designed and developed a full-stack platform for showcasing and selling products online.

Tech stack:

React / Next.js, Node.js, APIs, Database , AWS, Kafka

<https://www.urbanstall.app/explore>

PagnAI (Campaign AI Platform) | 08/01/2025 - 11/11/2025

- Built a scalable backend architecture using **Node.js APIs**.
- Designed dynamic frontend components using **React / Next.js**.
- Implemented campaign filtering, editing, publishing, and analytics features.
- Integrated AI-driven content and automation features to improve campaign efficiency.
- Developed an AI-powered platform for creating and managing digital marketing campaigns.

Tech stack:

Node.js, React, Next.js, REST APIs, Cloud Services, AI, Large Language Model(Open AI)
